(1) The Legislature recognizes the importance of having an effective state filing system for unpatented federal mining claims located on trust lands prior to the state's acquisition of title that would allow the state to determine the extent of preexisting unpatented mining claims on those lands and eliminate the cloud on the state's title created by abandoned unpatented mining claims, while preserving the rights of owners of valid preexisting unpatented mining claims located on those lands.

(2) Annually on or before December 31, each owner of an unpatented lode mining claim, placer mining claim, mill site claim, or tunnel site claim located pursuant to the general mining laws of the United States on lands now owned of record by the state in trust for the common schools or other beneficiary institutions shall file with the administration a notice as prescribed by Subsection (3).

(5) (a) Failure to file the notice required by this section constitutes an abandonment of the claim by the owner.

(b) Filing of the required notice by one owner of a claim in which multiple persons own or claim interests fulfills the filing requirements of this section.

(6) Filing of a notice under this section does not make valid a claim which is otherwise invalid under other applicable law.
